MultiX thematic session: How to present!

By: Meike Kombrink
m.kombrink@nfi.nl

Supervisors:
Prof. Dr. Ing. Zeno Geradts
&
Prof. Dr. Marcel Worring.

What are we going to do?

- How to give a presentation
- Tips and tricks for gorgeous slides
- How to give/make a DIGITAL poster presentation (answer: don't)

Example 1

https://www.youtube.com/watch?v=Tc1CO9D_kMs

Example 2

<https://www.youtube.com/watch?v=dh0pJdgY6Lc>

Example 3

<https://www.youtube.com/watch?v=NWg7HIY5GTk>

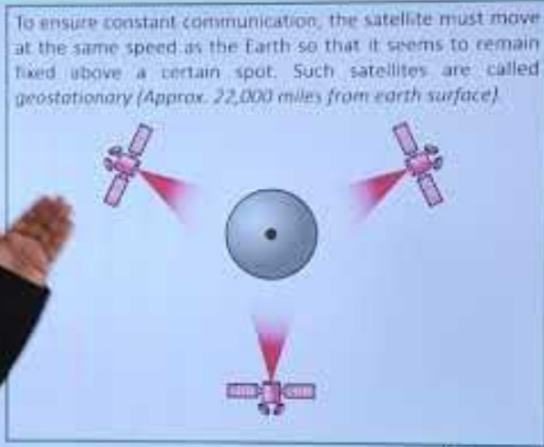

Example 4

https://www.youtube.com/watch?v=6Of7ewLD_54

GEO Satellites

To ensure constant communication, the satellite must move at the same speed as the Earth so that it seems to remain fixed above a certain spot. Such satellites are called geostationary (Approx. 22,000 miles from earth surface).

tutorialspoint
ACADEMY OF POINTS

To do and not to do

TO DO	TO NOT DO
Well prepared	Zoom in of camera
Use of infographics (no reading) + building it up	No sign posting
Start with a short summary	Waiting for writing down words (ambiguous opinions)
Use of examples	Go super fast
Structured story	No interactions with the screen (felt separate)
Funny and applicable opening	Do not read the slides
Accessible/good storytelling	Don't give motivation for the presentation
Dressing up	Too much tekst!
Only key tekst on the slides	Unaligned figures
Including jokes	Switch between different metric systems
Enthousiastic commentary	Presentation doesn't add anything over the slides
Have an interesting topic	An animations for every word
Use interactive systems/videos of these
